# Cyclamen Program Information

**Product ships February 26, 2018 - February 22, 2019 (except prefinished pots July-December 2018).**

Every cyclamen liner and prefinished pot that leaves Wagner's carries with it the evidence of our dedication to producing top quality products to help your season get a great start. We start by working closely with your sales person to ensure accurate order entry. Cyclamen are a particularly special due to the long crop time and the very specialized culture required to produce healthy plants. We then ship the liners and prefinished pots to arrive in good condition on the date you expect. After shipping, we continue to support our product with technical expertise. We look forward to helping you achieve your best crop possible. In addition to our cyclamen liners, Wagner's produces prefinished cyclamen in four inch pots. Compared to using liners, the use of prefinished cyclamen will reduce crop time by 50% or more. For standard cyclamen, growers transplant the prefinished pots into six inch pots upon arrival. After about eight weeks, a beautiful plant has filled the pot and is showing great color.
