

SEASONAL GREENHOUSE

PRODUCTION

This summary highlights the main components of Wagner's seasonal greenhouse general production positions, but is not inclusive of all activities that may be required. Employees may be transferred from one position to another position listed below as need arises.

SUMMARY OF AVAILABLE POSITIONS

1. SEED

- Plant seeds into trays by hand and/or by automated machine.
- Catch trays and stack.
- Label trays with accuracy.

2. SOILS/TRANSPLANT/CUTTINGS

- Ensure trays are filled with soil for the next stage in production.
- Transplant young plants into larger trays.
- Stick cuttings into soil following all hygienic protocols.

3. QUALITY CONTROL

- Digging – remove soil from empty tray cells.
- Patch trays – fill empty cells with plants.
- Grading – move plants to incorporate the same size plants in each tray.
- Trim cuttings using scissors, removing flowers/leaves, etc.

4. SHIPPING

- Load and unload trucks.
- Pull orders with accuracy for packing and shipping to customers.
- Assemble packing boxes.
- Transport trays for loading of product.

Other duties may be defined by your direct supervisor/manager.
