What is My Garden?

Bringing an innovative twist to fundraising with plants, Wagner Greenhouses offers the **My Garden** program.

My Garden Combo Kits include seven premium plants in professionally designed combinations that are ready for planting in containers or garden beds. Different combinations are designed with schemes to match every gardener's color palette.

In addition, Wagner's offers **My Garden Select Kits** which include six premium plants. These are perfect for gardeners that prefer to focus on a single type of plants. There are seven different options available to suit any garden.

The individual plants included in the **My Garden Kits** are grown in ellepots, an eco-friendly, fiber wrap pot which eliminates plastic waste. There is no need to remove the fiber wrap at planting; the ellepots will degrade over the summer and are fully compostable. Plant size is comparable to traditional 4 inch potted plants.

Profit
